

8 May 1957

MEMORANDUM FOR THE RECORD

SUBJECT: Preliminary Section 83, NIS 14, October 1956 -
second sentence, first paragraph, of Preface

1. Subject document was brought to my attention on 7 May 1957 by my Special Assistant. Ten copies were received in OCR, all of which were forwarded to OBI at SA's request. The document represents the first issue on an interim basis of preliminary drafts in lieu of AIS in accordance with agreement reached with Air Force representatives.

2. The second sentence is objectionable in that it implies the reason for delays lies with OBI procedures.

3. This matter was discussed by telephone with Col. Carnes on 8 May. After some discussion between him and [REDACTED] it was agreed that subsequent issues of the preliminary drafts in this form would omit the second sentence of the first paragraph of the Preface, leaving the remainder of the pages as presently written. 25X1A9a

4. Attention is invited to the provisions of the basic agreement with the Air Forces which will terminate the issuance of these preliminary drafts as soon as Air Force's improvement in quality of their contributions permits accelerated publication and dissemination of the regular NIS.
